IP-614

MEMORANDUM FOR:

ATTENTION:

SUBJECT:

Answer to Request for Estimate on Trade Potential  
between Japan and Communist China Over the Next  
Five Years.

REFERENCE:

1. The attached paper, The Probable Development of Sino-Japanese Trade: 1958-1962, essentially agrees with the conclusions of CIA/RR/IP-476, Probable Developments in Japan, but provides a value estimate of the trade potential between Japan and Communist China for the year 1962.

2. Because of the limited time available and because of the basic agreement with IP-476, this paper has only surveyed recent developments and considered significant factors necessary to the evaluation of trade potentials.
